

DRINKING WATER SYSTEM

APDWS1000

Aqua-Pure®

WATER FILTERS

Clearly Great Water

- Advanced dual stage carbon block filtration system

Made from **FDA***
CFR-21 Compliant
Materials

*Food and Drug Administration

System Tested and Certified By NSF International Against ANSI/NSF Standard 42 for the Reduction of Chlorine Class I, Taste/Odor, Particulate Class I and against ANSI/NSF Std 53/58 for the reduction of Cyst, Turbidity, VOC, Lead

Model:

APDWS1000

Application:

Dirt / Rust

Taste / Odor

Chlorine

Lead

VOC's

Cysts

Features:

- ▶ Dual stage carbon block system.
- ▶ Built-in automatic shut-off meter.
- ▶ Exclusive pull and change cartridge design.
- ▶ Installation hardware, faucet, and pipe connections included.
- ▶ Manufactured from FDA CFR-21 compliant materials.

Benefits:

- ▶ Reduces lead, chlorine, VOC's, cysts, bad tastes, and odor from water.
- ▶ System automatically shuts off after 625 gallons (2365.9 liters) as a reminder to change cartridges.
- ▶ Cartridge replacement is quick, easy, and sanitary.
- ▶ Easy installation.
- ▶ Conforms to public health requirements for water purification.

The Choice of the Professional Plumber

Specifications

Model No.	Inlet/Outlet Size	Dimensions	Approx. Weight	Maximum Flow Rate	Capacity	Maximum Water Temp.	Maximum Water Pressure	Standard Replacement CTG. No.	Replacement CTG. Quantity	Degree of Filtration
APDWS1000	1/4" Tubing	11" x 15.5" x 4.5" (28 cm x 40 cm x 12 cm)	7 lbs. (3.2 kg)	0.6 gpm (2.3 lpm)	625 Gal. (2,365.9 L)	100° F (38° C)	125 psi (862 kPa)	DW80/90 (set of two)	2	0.5 micron nominal

How Dual-Stage Carbon Filtration Works

Aqua-Pure's dual stage carbon block filtration system contains the most effective filtration media for reducing common but potentially harmful impurities.

Multi-Composite Media - Magnified 250 Times

Stage 1:

Water travels through a Multi-Composite Media filter. This reduces lead, chlorine sediment, bad tastes, and odors.

The water then continues through a solid Pressed-Carbon Block, which is made up of a unique formula of powdered activated carbon. This reduces THMs and VOCs including Benzene, Toluene, PCE, and others. Giardia Cysts are also reduced through this ultra-fine filtration media.

Pressed Carbon Block Magnified 1,000 Times

Stage 2:

Features That Say Quality

Automatic shut-off meter reminds your customer when to replace spent filter cartridges

Exclusive quick change filter cartridges replace in seconds. Without spills or mess.

Modern Euro-design for easy installation, allowing more installations per day.

Easy Installation

Your new **Aqua-Pure** Filter conveniently installs on the cold water line under the kitchen sink. Complete installation instructions are included for your convenience.

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

Systems certified for Cyst reduction may be used on disinfected water that may contain filterable cysts.

EXPERIENCE • INNOVATIVE TECHNOLOGY • LEADERSHIP

CUNO, Inc., manufacturer of **Aqua-Pure** water filters, has been designing and producing premium performance water filtration systems for over 80 years. CUNO is a world leader in fluid purification for major Restaurant Chains, Food and Beverage Processors, Cruise Ships, Hospitals and Pharmaceutical Companies.

Aqua-Pure brand water filters are the choice of quality-conscious Plumbing Professionals, Builders and Specifying Engineers. Today, **Aqua-Pure** water filters can be found in **MILLIONS** of homes around the world!
