

APRO5500 FLOW DIAGRAM

- A. full line pressure
- B. full line pressure
- C. S.F.C(slow flow control)steady stream
- D. approx. 2 to 3 drops/sec.
- E. back pressure from tank will s/o water to membrane
- F. 1. water travels to tank (faucet closed)
2. water travels through filter to faucet (faucet opened)
G. pressure in bladder when empty of water.(7-lbs)
